Dear Senate Judiciary Committee Members,

There is an utter failure on the part of State Police background checks if they can't resolve an unknown delay in several days. Should that stop an applicant from being able to find out why? Should that stop an applicant from being able to get a gun indefinitely? The answer to both questions is no. The vote from the committee should also be "NO" on SB 797.

This also goes for SB 764.

Thank you.

Regards,
