---

Dear members of the committee,

I would like to have this testimony entered into the record in opposition of SB797 and SB868.

SB797 is completely unnecessary , the state police should not be regurgitating the DATA from the National Instant Check.

The fact that a firearm transfer can be held up due to something as simple as a misspelled name is appalling to me.

No on this unneeded bill .

SB868 is a very poorly conceived Bill as well. I realize that Senator Boquist believes that this may have reversed a personal tragedy in his family.

This bill is so poorly written that it will help no one.

A despondent person can use any item to get to the end means. Shall we remove a car a kitchen knife, or perhaps a screw driver.

I urge a no on this ridicules bill.

Thank you
