I am a licensed clinical social worker who has practiced in Oregon for nearly 20 years. During that time, I have worked in a hospital critical care unit and in the hospice field. Through my professional experiences, I have witnessed the unspeakable devastation caused by gun violence and subsequent critical injuries and deaths. There are long lasting traumatic impacts for families, friends, and communities when such deaths occur. Senate Bill 797 provides balanced and reasonable methods to prevent dangerous individuals from easily accessing firearms, and would thus aid in minimizing deaths from gun violence in Oregon.

Please take common sense action to prevent more needless deaths from gun violence and vote YES on Senate Bill 797.

Respectfully,

Julie LeMaster
Monmouth, Oregon
