> I am property owner in Deschutes county. It's my understanding that SB1057-11 would allow the state to regulate recreational marijuana cultivation and override individual county regulations. Hundreds of hours were spent in discussions and hearings in the individual counties in the process of writing regulations to control the cultivation of recreational marijuana. I am absolutely opposed to the state overriding local government regulations. It is obvious the well financed marijuana industry is behind this blatant attempt to liberalize regulations and remove local county control of marijuana production. Robert Adair 18000 Edmundson Road Sisters Oregon 97759
