

Oregon State Capital

RE: SB1057-11 amendments

VIEW: DO NOT REMOVE the TIME, PLACE rules in Deschutes County.

Marijuana production here in Deschutes County started with the medical side of the operation. It has been out of control with 1,500 to 1,700 grows in our county.

Now we have the RECREATIONAL marijuana people taking over more and more corners of the county and many are with the intention of expanding the medical grows. This is an extremely serious situation. It expands by tenfold the consequences of this operation.

What will happen to our water? We must have the controls that are in place. After completion of our personal water rights last year, the official stated to my husband that the Deschutes County water rights were all bought up by the POT operations. Does anyone realize the implications?

Oregon is a HOME RULE state. Seriously how can the STATE remove the protections that were established to protect Deschutes County residents last year?

Do NOT remove the TIME, PLACE rules in Deschutes County.

Sincerely,

Patti Adair
