

Senate bill 764 should not pass. It is just another method to make it impossible to have a concealed handgun license .

As a veteran I know this is wrong. Current atmosphere is take as many rights as possible because president Trump wants us to be free. Removal and deleting gun laws I. Oregon including background checks would be smarter. I hold two permits and once national concealed reciprocity passes Oregons Democrats and Bloomberg are outta luck. Judge gorsuch of the supreme Court will hear gun cases so beware. The supreme Court is conservative and will undo your nonsense
