

Sb 764 is onerous in nature, and discriminatory in practice. This bill would make the requirements for obtaining a chl in Oregon so expensive and burdensome, that it would deprive a vast majority of Oregonians out of one of our most fundamental liberties the right to keep and bear arms. I urge you to vote no on this discriminatory bill. There is no reason for these requirements as a study done by the crime research prevention center concluded chl holders are more law abiding than police officers. So I ask you what incidents have occurred warranting such onerous requirements?
