

I am writing to support two bills the Oregon Senate Judiciary Committee heard testimony on that would patch the dangerous "Boyfriend Loophole" and "Charleston Loophole" in our state's gun laws. Gun violence devastates families and households throughout Oregon, tearing apart the very fabric of our communities. Instead of reaching for weapons, we must reach for answers. Please support:

1. SB 797- addresses an important loophole in the background check law
2. SB 868 - enables family members to obtain a court order to restrict gun access to those who pose a threat to themselves or others

Thanks,
