

Dear committee members presenting Senate Bill 82,

We are students from Sunnyside Environmental School, we are opposed to youth solitary confinement. We are all of the ages 12-14, and we are standing together to legalize youth solitary confinement.

It's scary enough being a young person who is capable of being sentenced to prison, which can have large impacts of the growing mind by itself. But the fact that, while in a place that is already damaging, you can be further punished by being locked in a small room for weeks on end, with no opportunity to see daylight, to exercise, or, worst of all, to socialize.

Socialization is a key part of a growing mind, because making connections between other people is important in their part in society. You can't make connections when the person you have connections to is the people who are torturing you by locking you away.

“Because it is already scary to know that someone my age could go to prison, but for a person that is my age to be locked in a box... That is *very* scary.”

-Stella, Age 12

We hope you understand our perspective on this matter. It is very important to us and we hope you agree.

Sincerely, Maggie Cannistra, Duncan Goddard, Elliot Reinstein, Zoe Zengerle,
Colin Kelly, and Abi Fichter-Murphy

“Let children see the sun.”

-Carsen, Age 13
