

I have spent many hours going over these three bills. They do nothing at all to stopping crime with guns. What you need to do is if anyone uses a gun in a crime make the penalties more severe. If they kill someone give them the death penalty. Until we start enforcing our current laws these useless attempts at taking away someones rights is going to make matters worse. By penalizing good people for the bad people doing wrong is not only shameless but it goes against society as a whole. These bills need to be thrown out and we need to start enforcing the laws we do have.

Thank You

Edwin L. Hilkey
