

To all representatives,

Please represent me and vote do not accept or move forward on SB 868, 797, 764.

I want you to know that I do not agree these bills and with the unwanted outcome from these bills.

And I don't not support the "dash 4" amendment to SB 764 or "dash 3" on SB 797.

Please find a way to not impact the law abiding guns owners' rights in you efforts to protect the public for criminal gun use.

From what I have read, if the state would make it a priority to enforce the current gun laws we have it would go a long way in achieving your goal to keep guns out of hands of the mentally ill and criminals.

As I have read these bills SB 868, 797, 764 it seems these will only add to the difficulty for a law-abiding Oregonians to get and have a gun but will do little to deter criminals or the mentally ill.

Please represent me and I believe the majority of Oregonians and stop these bills.

Thank you,
Mark Hambelton
