These gregarious bills, SB 868, 797 and 764 up for hearing today are nothing more than an attempt to prevent law abiding citizens from protecting our families and homes from the criminals that you have let run free on the tax payers dollars. These bills need to be killed once and for all so that we American citizens can live in peace and secure in our own homes and lives where ever it takes us within the boundaries of the state of Oregon.

Respectfully yours
Blake Rebman
