EFFECT OF AMENDMENT:

BACKGROUND:

Oregon's statewide land use planning program was created in 1973 when the Legislative Assembly passed the Oregon Land Use Act (Senate Bill 100). The program is overseen by the seven-member Land Conservation and Development Commission (LCDC), which receives administrative support from the Department of Land Conservation and Development (DLCD). Following the passage of Senate Bill 100, LCDC developed 19 land use planning goals, including but not limited to economic development, energy, transportation, and housing. All cities and counties are required to adopt comprehensive plans that meet these goals. Under certain circumstances, jurisdictions may claim an exception to a goal. Currently, LCDC must provide acknowledgement of a jurisdiction's comprehensive plan within 90 days.

House Bill 2316 would require cities outside of metropolitan areas with a population less than 25,000 people to determine the estimated housing needs for the area, inventory the supply of buildable lands, and adopt measures to accommodate the estimated housing need.
