

**MEMORANDUM**

**TO:** The Honorable Sen. Elizabeth Steiner Hayward, Senate Co-Chair  
The Honorable Rep. Dan Rayfield, House Co-Chair  
Subcommittee on Human Services

**FROM:** Janell Evans, Budget Director, Oregon Health Authority

**DATE:** April 25, 2017

**SUBJECT:** Responses to April 18 Public Hearing Questions

---

During OHA's presentation before your committee on Tuesday, April 18, committee members asked questions that required additional follow-up. Here are those questions and our responses:

**Rep. Alonso Leon:** Do you have a percentage per CCO of surveys that are submitted? It'd be good to know what populations these CCOs serve and then how many people from those CCOs submitted surveys.

*Please see attached Spreadsheet Consumer Assessment for Health Providers and Services Survey (CAHPS) response rates by CCO and Ethnicity.*

**Sen. Steiner Hayward:** Do you have any sense of how many of the 16 CCOs have obesity as part of their community health reduction programs?

*Please see attached survey results from the Medicaid Behavioral Health Risk Factor Survey from 2014 on BMI rate over 30.*

*The following CCOs include Obesity, Physical Activity or Nutrition in their community Health Plans.*

Coordinated Care Organization (CCO)	Community Health Improvement Plan Priority		
	Obesity	Physical Activity	Nutrition
AllCare CCO	X		X
Cascade Health Alliance		X	X
Columbia Pacific CCO	X	X	X
Eastern Oregon CCO			
FamilyCare, Inc.	X	X	X
Health Share of Oregon		X	X
Intercommunity Health Network CCO			X
Jackson Care Connect		X	X
PacificSource Community Solutions: Central Oregon	X	X	X
PacificSource Community Solutions: Columbia Gorge			
PrimaryHealth		X	
Trillium Community Health Plan	X	X	X
Umpqua Health Alliance		X	X
Western Oregon Advanced Health		X	X
Willamette Valley Community Health	X	X	X
Yamhill Community Care Organization	X	X	X

**Sen. Steiner Hayward:** When schools report out their immunization rate they're required to do so by disease and not just in general. As a doctor, I care about all immunization but as a parent I care less about Hep B than Mumps. Could you provide the committee with more of a break down by disease for immunization rates? And in a more digestible format?

*Please see attached data on distinct counts of OHP children by type of vaccine.*

**Sen. Winters:** Is there a timeline by which you'll have sufficient information to come back to this group with information [about the effective contraceptive use rate]?

*The Oregon Health Authority would like to come back and present on the ongoing comprehensive work related to unintended pregnancies. OHA's Unintended Pregnancy Workgroup will have data and outcomes identified in early June.*

**Sen. Gelser:** Physical exams for teenage girls – are those offered?

*The Oregon Health Authority would like to come back and present on the ongoing comprehensive work related to unintended pregnancies.*

Consumer Assessment fo Health providers and Services Survey (CAHPS) 2015 Response Summary

In order to increase response rates from various minority race/ethnicity groups, the following steps are taken:

1. Minority race/ethnicities are oversampled across the state.
2. Additional extension of one week at least on telephone follow up for non respondents are conducted.
