

Chair Burdick and Committee Members:

I would like to indicate my strong support for this bill. It is frustrating to the public to not be able to identify where a bill is initiated. It is also confusing when a bill is amended or a "gut and stuff" occurs and it is unclear where the new bill came from.

If a bill or amendment to a bill has no one willing to take credit for it, it probably should not be heard in the first place.

Thank you for considering this bill.

Irene Gilbert
