Subject: New Rules

Dear sirs:

I am a patient, I am not able to have a "real" job and would be disabled if not for the medical marijuana. I have always grown enough for patients and use the waste for making products to pay for the cost of producing it. I grow completely organic & only get an average of one ounce per plant. I always paid taxes, up until this last March when all of that became illegal. It's like you went down the list of things I did & made it all illegal! I am now on OHP as my income has gone down to nothing. It will be months before I have enough product to send for testing. I won't be able to afford a \$2000 fee. Where will I get that money when you have taken all my income away?

You need to make this easier, not harder or more expensive!!!! The medical marijuana program has been left behind in your greed!!!

Thank you!

Sincerely, Noreen Arnold
