please stop this nonsense and give the rights back to landlords NOT renters. I rented my house suppose to good people and they did \$40,000 00 damage and then had the nerve to buy there own home.i am left with so much debt I had to short sale my house due to not wanting to rent again and go thru this hardship again?how do I trust again? lost my income due to this. I don't work.this was my money for my future. please see our side of the coin. we buy houses for extra income n renters abuse us. tear my future apart. please accept my vote.

no longer landlord in medford oregon 2016
