HB2004 bill

I am sending in my vote for this bill since I will not be able to attend on Wednesday. I strongly vote NO on this bill. I feel it is a detriment to landlords and tenants both. I have one rental and it is on a year lease which would be a struggle for me to pay the relocation fee on. This is a property that I am using for my retirement funds when that day comes. I would like to purchase more for retirement, but will rethink this strategy if this bill passes.
