

HB 3051 STAFF MEASURE SUMMARY

Senate Committee On Environment and Natural Resources

Prepared By: Beth Patrino, LPRO Analyst

Meeting Dates: 5/4, 5/10

WHAT THE MEASURE DOES:

Expands permissible uses of Water Measurement Cost Share Program Revolving Fund moneys to contribute up to 75 percent of moneys needed to install, substantially repair or replace measurement device on authorized points of appropriation to protect existing water rights or measure ground water use.

No fiscal impact, no revenue impact

House Vote: Passed. Ayes, 58; Excused, 2--Boone, Power

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

House Bill 4113 (2016) established the Task Force on Drought Emergency Response to review and make recommendations on the tools and information needed to prepare for and respond to drought. The Task Force was asked to: evaluate existing drought response tools and make recommendations to improve drought response; identify options to minimize the impact of drought on agriculture, municipalities, fish and wildlife, and other interests; identify data and resources needed to anticipate and understand drought impacts; and recommend improvements to information sharing during drought. The report of the Task Force was due November 1, 2016 and the Task Force closed on December 31, 2016.

House Bill 3051 would address recommendations by the Task Force on Drought Emergency Response by allowing the use of moneys from the Water Measurement Cost Share Program Revolving Fund to help pay for installation, repair or replacement of a measuring device on an authorized point of appropriation to protect existing water rights or measure ground water use.
