

SB 1057-23

Tracking Costs for OMMP registrants
to come into METRC

Oregon's medical marijuana program and the cost of tracking.

Patient cost for those patients who are their own growers but do not grow at their apartment, subsidized housing or just cannot risk growing at their own addresses.

Doctors visit	\$150.00
Patient card fee	\$200.00
<u>Grow site reg. fee</u>	<u>\$200.00</u>
Total Cost	\$550.00
METRC user fee	\$480.00/year *
<u>Admin. Cost fee</u>	<u>\$200.00/year. projected</u>
Total	\$1,230.00

As written, SB 1057's plan to force OMMP growers and patient-growers into METRC will add these costs and will have the exact opposite effect of what the state is trying to accomplish.

*OLCC licensee user fees are currently paid for through the OLCC licensing fees.

Oregon's medical marijuana program and the cost of tracking.

Patient cost for growers growing for themselves and three patients.

Grow site reg. fee \$200.00 x 3	<u>\$600</u>
METRC user fee	\$480.00/year
<u>Admin. Cost fee on patient app. \$200 x 3</u>	<u>\$600.00</u>
Total	\$1,680.00

One may say these growers can simply become an OLCC licensee for that amount of money but it does not take into account the 1600 growers in Douglas County, 1800 in Marion County 5,000 in Jackson county and all the growers in Eastern Oregon all of whom have no access to an OLCC license.
