Subject: Rent control

To whom it concern,

This is a bad Bill. How dare you take away my rights as a homeowner and a landlord and try to force me into how much I can charge for rent or how to deal with a tenant who is not taking care of my property.

This is Oregon if you have forgotten apparently you folks have forgotten that point. Please reconsider this bill as it will hurt more people than it will help remember we're the ones that are paying the property taxes around here
