Subject: HB 2004-A

I live in Southern Oregon and count on income from a rental property for my retirement income. The government just keeps making it harder and harder for landlords to stay in business. If HB 2004-A is passed, the end result will be bad for everyone involved. Many landlords will end up selling their rentals (often to people buying them for a personal resident with the end result being less available rentals). This is bad law!

Please vote NO on HB 2004-A
