

HB 2004

I

MAY 3, 2017

April 11, 2017 Tuesday

I am a single, disabled 76 year old woman. My income is very low.

For awhile now I have been trying to find different housing.

However, the rents are so very high and constantly raising at a very high per cent.

Middle income and low income are priced out of the rent market now.

Also, No cause eviction may be legal (I hope this changes). No Cause Eviction is not moral or ethical.

There is serious homelessness already.

OVER

II

of the high rents and no cause  
eviction is causing homelessness  
to be an epidemic.

It is lack of stability  
for people - children, elderly,  
families and single people. Also,  
loss of healthy communities.

Vote YES ON

HB 2004

Sincerely

Jeanene H. DePier
