Subject: I am against HB 2004-A, for the sake of the poor!

Dear legislators,

I am urging you to vote against HB 2004-A. I am a rental owner and I feel these potential Laws would be detrimental to our society. It would cause me to be extremely picky about who I am willing to rent to, not taking any chances on people in a difficult situation. I would not be able to risk it. My rentals are not in a rich part of town, and I have often had tenants take advantage and ruin my property, losing thousands of dollars, under current law's. I feel that any laws further restricting me as a landlord would be detrimental to Our entire system.

Sincerely,

Chrisanna Wesner
