Please do not let this legislation become effective. I am a small apartment owner in Ontario. My 11 apartments are occupied by people of low income or welfare recipients. They all know the law very well and use every angle to get benefits from the government rather than getting a job and earning their own way. Legislation like this just continues to promote the welfare state and does nothing but harm for the unemployed and homeless. Use your efforts to generate jobs and opportunity for these people rather than making landlords take on the burden of looking after them. As elected officials of the state you should try to take care of the people who pay taxes and pay for the services you so willingly give away to the people who will not work and only take handouts from the government. Do not let this legislation pass.

Sincerely,

Peggy J Stout
