

This bill will create larger us-against-them. Landlords throughout the state will raise their rents in anticipation and as often as they allow. I am in opposition to this bill.

please keep the wars in california and new york out of Oregon. if landlords want to raise rents or if tenants give any problem we work with them but if this bill passes we will evict at any reason we can then raise rents for the next tenant. We have a rental shortage and a housing shortage. Maybe i will just sell all my rentals and the renters won't have places to rent.
