Subject: Re: HB-2004 A

To whom it may concern,

My husband and I have been good landlords for 22 years, and do not believe that HB 2004 A will solve Tenants' problems of finding affordable rentals. By controlling rents and not allowing landlords to handle their properties as a business, it will in turn cause landlords to sell out and thus cause further shortages. The root of the problem needs to be addressed: new funding for affordable housing in metro areas so that contractors & owners can qualify to build.

Please vote no on HB 2004A .

Thank you
