Thank you for accepting my comment.

My husband and I have 5 properties with 7 tenants in Benton County.

Expecting us to pay tenants to move will force us to reconsider continuing to rent.

2 properties would sell and maybe someone else would be able to keep renting.

The 3 others would leave the rental market: family use or abandoned would be their fate.

So sad that this attempt to address the problem of un-affordable rents would make fewer rental units available.
