This bill is totally ridiculous if you pass this it will be the beginning of government takeover of business (socialism) this bill expects we the provider of low cost housing in our community to not have any power to govern our own property's as we see fit.

I do not know how many property owners will leave the State and take their investment property money with them but I will !!!!! I will not own property under a socialistic government like Argentina.

You can bet there are renters just lining up to screw their landlords.

I submit this note with great respect for government but this is an egregious example of government overreach !
