

To whom it may concern:

I was at the Capital yesterday hearing testimony for the above mentioned bill. I am an owner of a property management firm in Corvallis, and I STRONGLY oppose this bill. This will have a significant ripple effect, and I'm afraid that while the honorable and ethical (which I consider my firm is), will be punished for those landlords who abuse their responsibilities both financial and ethical.

Please consider my opposition while this is being debated.
