SB 181A creates an undue burden for small nonprofits, especially Granges, by making them file an annual return with their local county assessor in order to keep their property tax exemption connected to their charitable work.

If by chance we forget to file —even for a few months— we will lose our exemption, and have to pay back taxes for the 5 previous years. We are all small, all-volunteer Granges, with secretaries who may forget to file.

This bill is unnecessary the assessors can get this information from other government agencies. We do not need the additional paperwork, since we are already filing annually for other agencies.
