**Subject:** Vote NO on, Oregon Senate Bill #181A  
**Date:** Saturday, May 06, 2017 4:35:43 PM

---

Dear Oregon Representative's;

This bill is wrong for so many reasons, I know that the State in 1.8 billion dollars in the whole. This is not the bill Oregon needs to fix its cash flow. As a member of, The Little Des Chutes Grange #939 and other non-profits that doe's good things for the community like, Scholarships', Food Give-A-Ways each month, \$ donations to our Community Kitchen and other needs in our local, we do not need more things to pay for or more detailed book keeping to stay on top of. This will make the burden of providing community service just too great for all volunteer organizations.

Please give this Senate Bill #181A your utmost consideration for a **NO** vote.

Fix our PERS problem by appointing a "Non PERS" membership committee to take over
