

Please amend SB3

I call BS on these fishing groups testimony they are using the wrong scientific terminology (i.e. destroying, threatening, damaging) the effects of gold mining are **Not listed as a key limiting threat**, it is related to some of the **limiting stresses**. In water timings, nozzle size, less than 25cy and all the best management practices included in the required two permits reduce these stresses to less than significant or they would not be able to issue these permits under 33 U.S. Code § 1344  
<https://www.law.cornell.edu/uscode/text/33/1344>

The white papers, Harvey & Lyle, Nawa the so called peer reviewed reports are all published by the American fisheries society, bookworms, a report of a single shovel of dirt from a field would look just the same, it doesn't show what's happening in the real world. The fish and streams are recovering there has been mining in ESH with the same restrictions for years, what has changed? Show us this new evidence of harm.

The Rogue River is now closed to dredging due to the now partially approved 303d list. Stream segments listed on the 303d list for sedimentation are now closed. These river segments are the most likely areas for parasitic lamprey ammocoetes

Miners with mining claims on ESH streams can not just go somewhere else Gold bearing Non-ESH Streams are all claimed up, they can't just go work on someone else's claim. Mining claims have been held and passed on for generations; to not be able to work these claims is like the state of Oregon condemning the family farm.

This is truly a dastardly & despicable thing, to bring such harm upon your own people.

**Please amend this bill to allow mining on mining claims**, to allow the small amount of mining that according to the 2016 NMFS biologic opinion **“the actions are not likely to jeopardize the continued existence of coho salmon or result in destruction or adverse modification of their designated critical habitats or slow conservation efforts”**.

( See exhibit A )

( <https://olis.leg.state.or.us/liz/2017R1/Downloads/CommitteeMeetingDocument/96025> )

( and see my testimony of May 3<sup>rd</sup> )

( <https://olis.leg.state.or.us/liz/2017R1/Downloads/CommitteeMeetingDocument/124387> )

How many placer mining claims would be in the SB3 mining ban 70-80%?  
Some rural folks will never own a house or land, a mining claim is property  
For some this is the American Dream, for some this is a way of life,  
to take away the right to mine, would adversely affect people's lives.  
SB 3 as a memorial to take away something people love to do and  
make their claims worthless is a disservice.

There are 2838 placer mining claims in Oregon,  
1220 are in Douglas, Josephine and Jackson County  
with 1164 unique claim owners in these three counties.

<>Sincerely, Dennis Hebard<>

**list of claimants who's lives might be adversely affected\_by SB3 in Southern Oregon**
