Subject: Bill 2004

I'm a landlord in Eugene, Lane county ...I have recently had to give a 30 day notice to a tenant that was yelling at the top of his voice at his kids and wife...play loud music with the speakers facing out open windows ...The other properties near are also mine with my tenants living in them with children of their own...the police have been called and this behavior still is happening ...With this bill I would have to pay for this bad renter to move ...I'm supplying them with a nice house and this wouldn't be fair in the least if I had to pay for them to move...beings that his actions alone are the problem... VOTE NO on 2004.... Thanks...
