---

I am a landlord in crook county and I urge you to oppose HB 2004-A! This bill will leave landlords exposed to exploitation by bad renters and ultimately cost renters more monetarily and in having good relationships with landlords by drawing a metaphorical line in the sand. The "bad" landlords out there are the exception not the rule and I think it would be poor judgment and short sighted to penalize all landlords due to the actions of a few. There will always be profiteers in every business and group but most of us are just trying to make a living and keep food on the table. Thank you.
