---

I'm writing you this email to let you know I oppose HB 2027-01. I support a future pedestrian/ bicycle bridge to connect the east and west side of the trail system for future generations to come. This bill would essentially eliminate that possibility. This is a trail that will go on into perpetuity and will be a legacy that will truly make Bend a great place to live and recreate. Please join me in opposing this bill.

Thanks,

Mitch Riggin...
