Subject: House Bill 2027
Date: Sunday, May 07, 2017 4:12:39 PM

The advocates for this bill are a disgrace to the Democratic process. Mr Whisnant added the amendment to prevent the park district plan to complete the well used and desired river trail for the benefit a a very few at the expences of the majority of people in Bend. There was little or no public process. Just a very quick and quiet addition of the amendments to the bill. I my judgement that means someone is trying to hide something.

Voting this Bill down and give the interested parties an opportunity to present their cases to you will demonstrate that the legislative process is not controlled by a selfish few.
