---

Dear Senate Committee,

As a 66 year resident of Bend, I strongly oppose the construction of another bridge on the Deschutes River upstream of Bend. Ample access to the upstream section already exists and it is heavily used. Please vote to keep this section of river as is for the future. It doesn't need another bridge! Our Park District is over the top as usual. Thank You, Bruce Fox 541-480-8896.
