Subject: Testimony in opposition of HB 2027
Date: Monday, May 08, 2017 8:46:06 AM

Hello,

Being busy with work and a family, I don't have a great deal of time to provide extensive testimony against the 'bridge ban', nor is it likely my points haven't been covered elsewhere, but, in short:

* It's a footbridge. Like those on many other Oregon rivers. Compared to all the things us humans have done to the environment, it's really, really not a big deal.

* It'd help get more people walking and biking over the river, rather than driving around on already somewhat congested roads.

* Look at a satellite map of the area:

<https://www.google.com/maps/@44.0086226,-121.3637977,2757m/data=!3m1!1e3>

- this is not a pristine wilderness. Oddly, no one is complaining about all the new houses and roads, only about a few trails and a small bridge.

Thank you!
