I wish to voice my concern over the possible approval of House Bill 2027. I live in Sunrise Village, one of the areas that would be impacted by this bill and I feel this Bill should not be passed.

The amendment added to this bill which would prohibit construction of a pedestrian bridge over the Deschutes River is simply a piece of Special Interest legislation put there by a very small but influential group of homeowners wishing to buy privacy at the expense of the larger community.

Construction of a pedestrian bridge in this area would allow citizens on the East side of the River a much needed way to access the Deschutes National Forest areas on the West side of the river without use of their cars and allow the continued extension of a public trail from Tumalo to Sunriver.
