Subject: Oregon HB 2027
Date: Sunday, May 07, 2017 9:13:20 AM

I would like to register my strong opposition to **HB** 2027 which would prohibit completion of the riverside trail between Bend and Sun River.

The completion of a continuous trail along the river between Bend and Sun River would be a major asset for the area. The trail and bridge can certainly be constructed in a manner that would protect and preserve the river resource - much more so than continued residential development!

This bill reflects a very hypocritical NIMBY position taken by a few landowners and a Representative who have never before shown significant concerns for the environment.

I strongly encourage defeat of this bill.
