I am strongly against the Whisnant maneuver to deny the Parks Dept plans to build a walking bridge across Bend's southern Deschutes River. I am a 27 year resident who hikes many trails in Central Oregon. But none more than the Deschutes River trail. I have followed with interest the shameful way in which Gene Whisnant and his monied friends have used the so-called "gut and stuff" maneuver to push his bill through the Oregon House. I am a voter, and I will make note of the Oregon Senate's action regarding HB 2017. Please support the bridge.

Thank you,
John C. Schwechten
Bend
