I regularly use Bend area trails for walking and biking. My purpose is both recreational and practical. I walk and bike trails for recreation. I also use bike paths and trails for errands, forgoing my car and thereby doing my incremental part to reduce greenhouse gases and keep Bend skies clear. I support trail building, especially ones that connect trail systems like the proposed bridge connecting the east and west sides of the Deschutes. Please oppose HB 2027.

Thank you,
