---

Please vote against House Bill 2027. This bill undermines the possibility of a Southern pedestrian bridge linking the river trail through Bend and providing greater trail access for those in Southeast Bend.

I've been engaged for many years as a member of this community in Bend Metro Parks and Recreation's master plan to link our river trail with this bridge. There are hurdles to overcome before the bridge can become a reality but those should be worked out locally rather than snuffed out in our State Legislature.

Please vote against House Bill 2027.

Thank You-  
Teague Hatfield
