---

This is a letter against House Bill 2027.

This Bill appears to have been born in an absence of adequate public discussion, and a lack of reasonable House debate. If the Bend Park & Recreation District wants this bridge, it needs a bill based on more public debate than this bill as provided, and a clear statement of benefit to all voting groups affected.

Regarding funding, a personal comment: the quicker we stop tying any funding to lotteries, alcohol or marijuana, the better off this society will be.
