

Hello

I'm a landlord in Deschutes county. This new housing agenda is in no way a fair deal for landlords or tenants. As a landlord myself I would dramatically need to raise the amount of monthly leases on new tenants that come in to cover these new tenant landlord laws.

I myself am not getting rich off of my tenants, but rather using my units to help with my retirement portfolio.

In order for the laws to be fair for both parties both sides need more time to get educated on the subject and sit down together to come to a compromise. As of now there has been no compromise and what is happening is that Portland is making again their problems a state problem.

Thank you

Jared
