

Hello,

I am against and asking you to vote against this law that would cause hardship on me, my business, and my family as a landlord when I have to remove a tenant for legitimate reasons. I sit today paying my mortgage for the 3rd month in a row without any payment of rent from my tenants. My bank account dropped below 0 this month because of this.

I am strongly against this bill and believe it endangers an already difficult but thriving rental market.

Thank you,

Cambria Trent
