Senator Dembrow- I am writing in support of House Bill 2027. We should not change the law that would allow a dangerous precedent to be set on wild areas in Oregon that should be kept pristine and open. Especially when we already have so many trails and areas for people that do not get heavily used at all.

I am tired of locals not having a say in some big decisions(i.e. OSU Cascades) where things get shoved down our throats without adequate public input. BPMRD needs to spend its money wisely in a way that really benefits its customers and not do power plays and hurt our communitys assets even more. We have not gotten better in the last 10 years in my opinion in many ways.

Sincerely

Debbie Ross
