I urge the committee to vote NO on HB 2027. I live in the River Rim subdivision which will be "impacted" by the proposed trail and pedestrian bridge. I welcome the opportunity to access the Deschutes River trail without having to get into my car two or three times a week - adding to Bend's growing traffic congestion - and drive 15-20 minutes to either the Good Dog Park, Meadow Camp or Lava Island Falls. I welcome the proposed bridge and trail expansion that would afford more Central Oregon residents the opportunity to enjoy and ultimately become stewards of our PUBLIC lands. That many trail hikers will pass directly by my home does not bother me in the least.

Thank you! And shame on Rep. Gene Whisnant for the way this bill was reconfigured and passed.
