---

Dear Oregon Legislature,

Please vote 'Yes' on HB 2027. I moved to Oregon about 3 years ago from Hawaii. Both states have unbelievable access to nature and wilderness. In a way, Oregon defines itself by it's natural beauty and the steps that have been taken to protect it. When entities concerned more with development and legacy than the protection of Oregon's scenic waterways try to alter existing laws protecting the Upper Deschutes (which the OPRD already rejected, something they should be applauded for), it would set an extremely dangerous precedent for future changes along this area. These changes would only damage, or ruin, the Oregon environment, something that defines the heart of Oregon.

That is why it is necessary to strengthen the protections of these state scenic waterways, and elevate these administrative protections into statues.

You have been an asset to protecting the environment in Oregon. Please continue to do so by voting 'Yes' on HB 2027.

Respectfully,  
Mark Cornish
